People

some are nice
kind words they say
from some you want
to run away

some are smart
others, dense as lumber
some you want to
delete their number

some are inconsiderate
others, people pleasin'
some you want to
hug for no reason

some are encouraging
and helpful, but
others you want to
tape their mouth shut

it might be a hard
and tiresome labor
but it's important
to love your neighbor
